

The fastest, most effective self-defense/firearms program I have ever experienced!"

## The A.C.T. Program

A series of classes designed to assist everyday citizens in "bridging the gap" between firearms and self defense. This is not simply a collection of "cool moves," but a complete system covering both the mental and physical aspects of self-defense with a unique emphasis on scenario training.

You'll gain the extra edge needed to not only retain your gun, but also protect yourself in the moments that you need it. You'll learn a simple, but highly effective system based around various systems such as Krav Maga, Hapkido, USMC MCMAP, Aikido & Jiu-Jitsu. Each level will develop new skills including retention, take-aways, moving and shooting and much more. It doesn't matter if you are 18 or 81...The moves we will teach you are easy to learn and effective no matter your size, age or gender.

Everyone deserves to improve their security. No matter your age, gender, or level of experience, A.C.T. will change your life!
